PROFESSIONAL SUMMARY

Design Builder and UI/UX Designer who doesn't stop at the Figma file. Hands-on experience across the full product design lifecycle — user research, information architecture, wireframing, high-fidelity prototyping, and interaction design — across Android, iOS, and responsive web. Uses AI (ChatGPT, Claude, Figma AI, Midjourney) not for mood boards, but as a build partner: to accelerate research synthesis, generate and stress-test design decisions, iterate faster, and push prototypes further than a traditional design-dev cycle allows. Strong visual craft foundation in typography, color, layout, and composition. Thinks in outcomes, not deliverables — owns the result, not just the vision of it.

KEY SKILLS

- Figma & FigJam — Wireframing, Prototyping, High-Fidelity UI, Auto Layout, Component Libraries, Design Tokens, Interaction States.
- AI as Build Partner — ChatGPT & Claude for Research Synthesis, UX Copy, Persona Drafting & Design QA; Figma AI & Midjourney for Rapid Ideation & Component Generation; AI-accelerated prototype iteration beyond what traditional design-dev cycles allow.
- Interaction Design & Prototyping — Clickable Prototypes, Micro-interactions, Motion Principles, Edge-Case Thinking, Live Prototype Iteration.
- User Research & Usability Testing — Discovery Research, User Interviews, Heuristic Evaluation, Usability Reviews, Persona Synthesis.
- Information Architecture — User Flows, Sitemaps, Storyboards, Journey Mapping, Task Flows, Application Maps.
- Visual Design — Typography, Color Theory, Layout & Composition, Iconography, Visual Hierarchy, Brand Consistency.
- Mobile & Web Design — Android & iOS Native UI Patterns, Responsive & Adaptive Web Design, Cross-Platform Design Systems.
- Design Systems — Component Libraries, Style Guides, Design Tokens, Documentation, Consistency Standards, Scalable Component Logic.
- Product Thinking — Outcome-Focused Design, Opinionated Product Decisions, Ambiguity Navigation, Brief-to-Build Execution.
- Collaboration — Stakeholder Presentation, Client Management, Feedback Integration, Cross-functional Agile Collaboration.

RELEVANT EXPERIENCE

Freelance UI/UX Designer / Design Builder

July 2024 – Present

Independent, Multiple Clients & Self-Initiated Projects

- **Brief to build:** Take design problems from brief through Figma wireframes, interactive prototypes, and high-fidelity handoff — pushing prototypes further than expected, owning the result at every stage.
- **AI as build partner:** Use ChatGPT, Claude, and Midjourney daily — not to generate mood boards, but to accelerate research synthesis, stress-test design decisions before client review, generate UX copy, and iterate faster through more design directions in less time.
- **Outcome ownership:** Managed client relationships independently — presenting concepts, making opinionated design decisions, incorporating iterative feedback, and delivering polished assets within agreed timelines without waiting for a complete brief.
- **Edge-case thinking:** Designed for complex user journeys across fintech, e-commerce, ed-tech, and social apps — accounting for edge cases, error states, and interaction nuance that don't show up in a basic wireframe review.

DESIGN PORTFOLIO

Full case studies: v0-siddarthportfolio.vercel.app

- Yaari (Social App) — Android/iOS: End-to-end UX/UI including user flows, wireframes, interaction design, component library, and high-fidelity screens for core social features.
- Shop Mart (E-Commerce) — Android/iOS: Mobile-first product design covering the full user journey from discovery through checkout, with a responsive web counterpart and complete design system.
- TixFlix (Entertainment) — Website: End-to-end UI/UX including wireframed booking flow, responsive web layout, and high-fidelity visual design.
- Teach Nexus (Ed-Tech) — Mobile App: UX design covering onboarding flow, course discovery architecture, and learning experience UI.

EDUCATION

Bachelor's Degree, North Eastern Hill University, Shillong

May 2018 – Aug 2021

First Division (64.25%)

CERTIFICATIONS

- Foundations of User Experience (UX) Design — Coursera
- Introduction to Graphic Design & Basics of UI/UX — Simplilearn
